## News / Spring 2021

### **Deli lounge**

*by Thomas Pedersen*

### **Isa ottoman**

*by Louise Hederström*

### **Soft Top chair and bar stool on wheels**

*by Brad Ascalon*

### **Bolero ottoman**

*by Nina Jobs*

### **Aplomb table in height 90cm**

*by Everything Elevated*

### **Matsumoto laptop table**

*by Claesson Koivisto Rune*

Siblings. Friends.  
Community. It's spring  
time for these families.

Rolling wheels, soft shapes and playful, eye-catching style. In the new spring collection, it's the small siblings and their friends who grab all the attention. Through family acquaintances in innovative new designs, we are continuing to create space for movement and reflection, creativity and pause.

With the same focus on sustainable materials and ergonomic solutions, we are expanding our popular families with new additions. So that meetings can take place. Experiences can be shared. And being together is never further than a few steps away.

### Deli lounge

by Thomas Pedersen

Award-winning Deli is expanding – in depth, width, with new upholstery and in a new lounge style. It's an easy-chair with laid-back self-confidence. The two-part design makes unique colour choices possible, the fully-upholstered back creates a feeling of whole and the soft shapes invite you to pause for a moment. Or a little longer.

### Isa ottoman

by Louise Hederström

Lowlands, hills and mountains. Isa bench follows the shifting shapes of nature in a room. Now it comes in a smaller format with this ottoman making an entrance with its neater style. Easy to move around. Easy to place. And with the same inviting attitude to spontaneous meetings and relaxed conversations as its larger partner with the same name.

**Soft Top chair and bar stool on wheels**

*by Brad Ascalon*

Stand, sit, roll forward and roll away. When Soft Top gets a set of wheels, creative meetings can gather pace. With its simple, unique design, Soft Top fits into most settings. With its flexible construction, it has a place anywhere that activity and movement are mixed with concentration and calm. In your home office in front of the screen. With colleagues at work. In the workshop where new ideas are waiting to emerge.

### **Bolero ottoman**

*by Nina Jobs*

An ottoman, a footstool, a small sibling who demands attention. Among the new additions to the Bolero sofa series, it's the little piece with a totally unique look that stands out in a room. A little lighter, a little neater than its older siblings. A piece that can blend in with the others in the same colours and with the same frame. Or one that can stand out with playful contrasts.

### **Aplomb table in height 90cm**

*by Everything Elevated*

Aplomb is a flexible table series designed to adapt seamlessly to various environments and needs. The stylish homogenous design gives it a discreet look. The series now includes a 90cm-high table, taking creative meetings to new heights.

**Matsumoto laptop table**

*by Claesson Koivisto Rune*

Say hello to the Matsumoto laptop table – the flexible waiter who always has a helpful surface close to hand. A new personality that is as easy to deal with as the rest of the family.

Matsumoto mini table.

Deli armchair with Isa ottoman.

## Scandinavian Sense

Our furniture exudes a feeling that is unique to Skandiform. We call it Scandinavian Sense – our way of balancing common sense with intuition in everything we do. This feeling is what drives us and lies at the heart of our entire business.

We began in Vinslöv, southern Sweden, where since 1962 we have been designing furniture that brings personality and harmony to spaces where people meet. It is here that we create products characterised by sustainable design with good function and quality, highly valued by our customers.

# Sustainability

## Sustainability

Skandiform defines sustainability as a way of working that values a holistic approach comprising environmental, quality, and work environment aspects. With this mind-set, we develop timeless furniture designs, always keeping comfort and life cycle in focus.

## Design

We ensure that the furniture we produce is well thought through, sustainable by having as little an impact on the environment as possible, can be recycled and gives a high level of comfort and wellbeing. We take care to select materials and suppliers that can meet our high standards. Our products are made to stand the test of time from both a quality and design perspective.

## Social responsibility

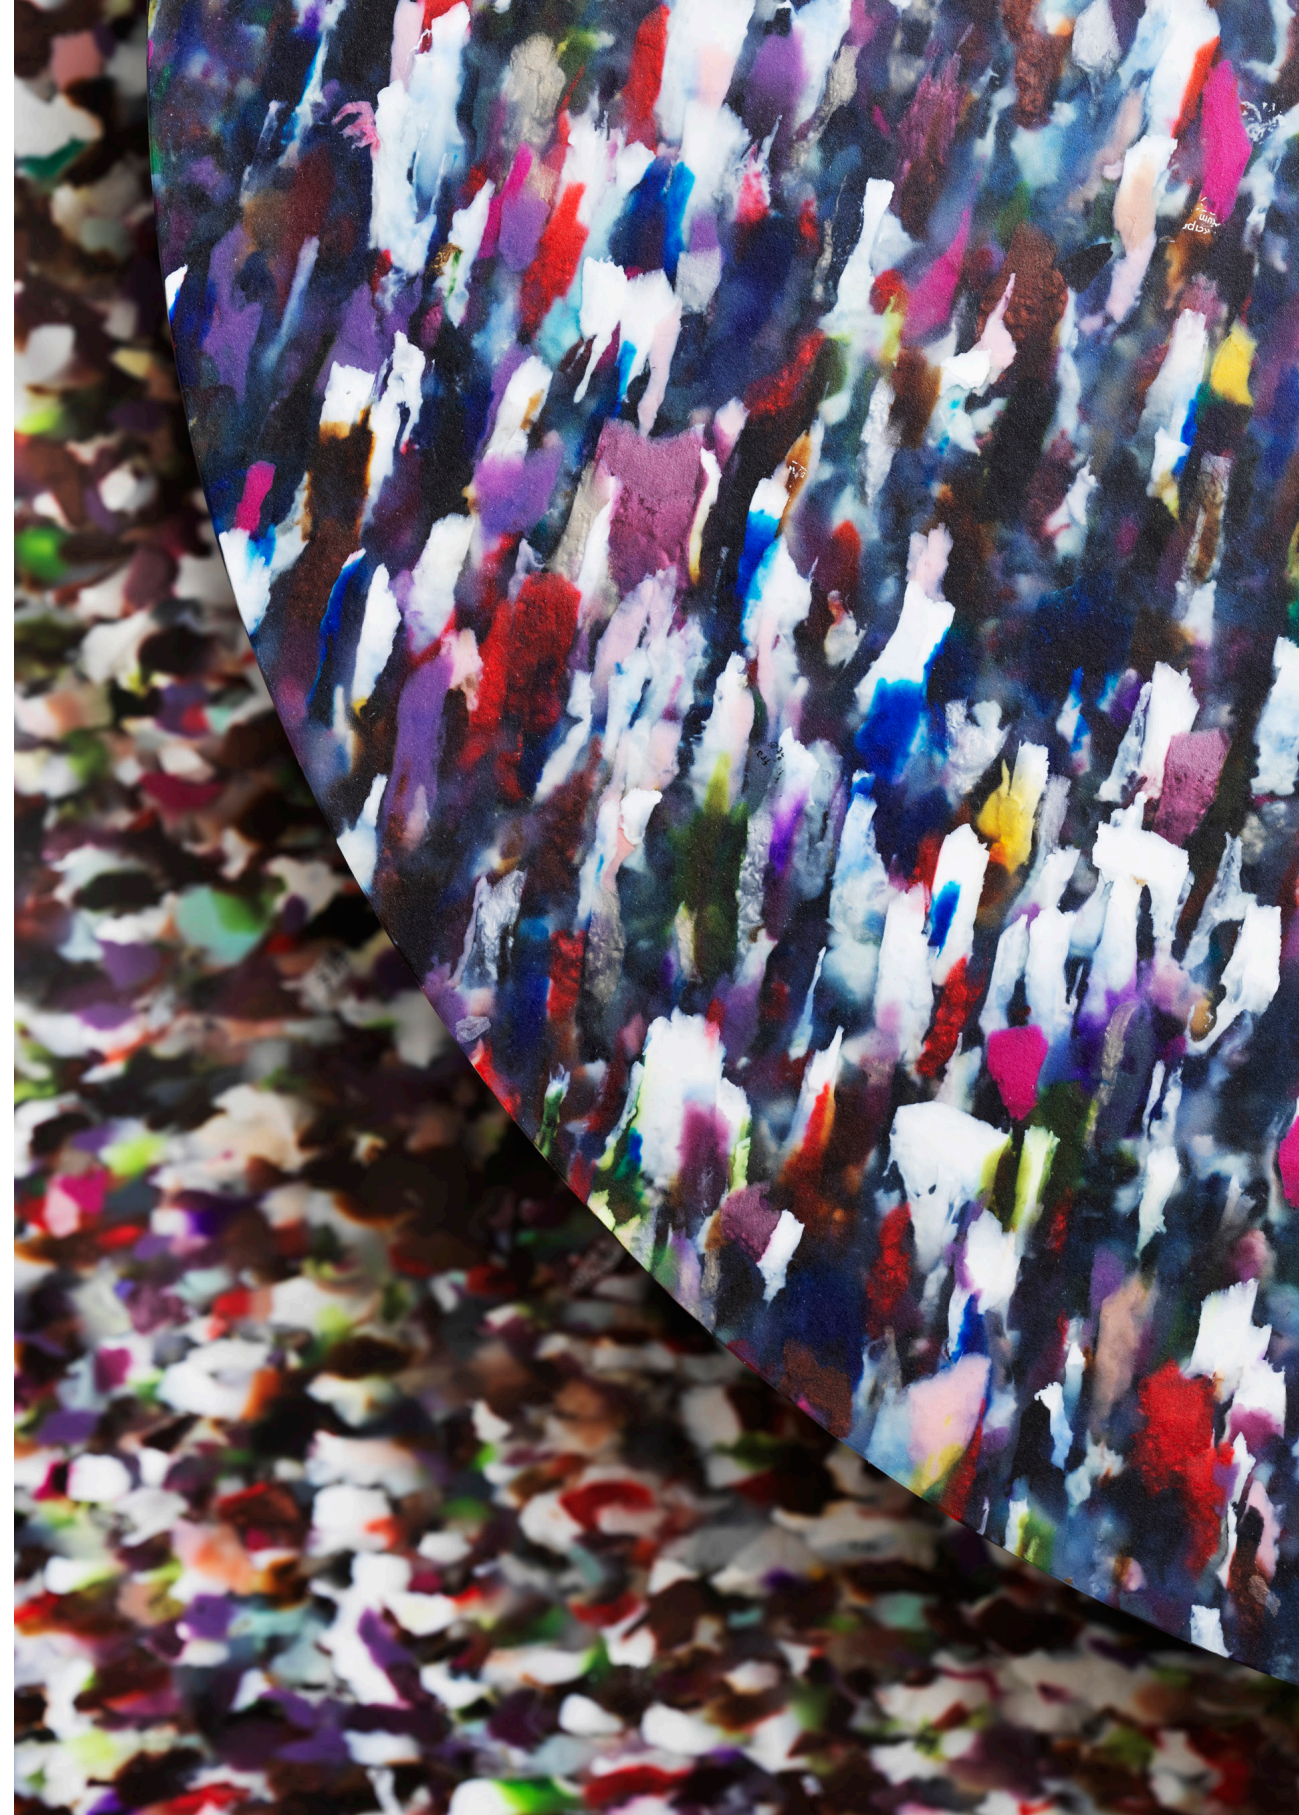

We strive to maintain good working relationships throughout our entire value chain in order to create a safe and progressive work environment that minimises injuries and ill health. We conduct risk assessments of our suppliers and enter Code of Conduct agreements. Internally we operate within the framework of work environment certification in accordance with ISO 45001.

## Certifications

In support of our sustainability work, Skandiform AB maintains a certified operating system with processes and procedures that comply with ISO 9001, ISO 14001 and ISO 45001. To ensure the origins of our wood supplies, we are also certified in accordance with the FSC Chain of Custody. Sustainability requirements are addressed in dialogue with our customers and other interested parties and through the environmental and sustainability labelling with which we mark our products, such as Möbelfakta.

## Agenda 2030

The UN's Agenda 2030 is a collection of global sustainability goals. It's an obvious step for Skandiform to engage in and contribute to this. We are contributing to several of the Agenda's goals through our sustainability efforts.

Timeout armchair with  
Aplomb table.
